- 18 languages + 1 downloadable
- Centralized management
- Easy registration
- Interactive messaging
- Stand-by time/Talk time: 235/20 hours² with activated screensaver

¹ only used as alarm button in 3735 Alarm version. For 3735 standard it is used as multi-function button.

² The Integral PBX does not support handsets to enter Low duty cycle when idle. Hence, the handsets will have shorter stand-by time.

Suitable for medium to high demand environments such as hospitals, retail & enterprise.

Avaya 3735 features enterprise-grade telephony with professional messaging, Bluetooth, and personal alarm all in one very capable DECT handset. The display backlight helps to operate and use the handset in complete darkness.

Besides excellent telephony, its advanced messaging capabilities make it ideal for interacting with colleagues and even automated equipment. The Avaya 3735 is available with professional messaging (Standard version) and to an advanced model that includes personal alarm capabilities (Alarm version).

The Avaya 3735 is more than a telephony and messaging handset. It also features an alarm button that can be used/ configured to trigger duress calls. DECT location functionality means colleagues

are notified of the handset's location — making the Avaya 3735 particularly suitable for lone workers.

The Avaya 3735 support Bluetooth Hands-Free Profile (HFP) version 1.6 to allow using Bluetooth headsets with the handset. The handset supports the call setup service including Basic Push To Talk (PTT Voice). The Basic PTT is presented as an incoming call when setup. Acoustic localization signal (ALS) is possible to configure the handset when an alarm is activated.
